

I am a concerned parent who exercises my right to vote. Please know that I am completely opposed to this bill which would allow a pharmacist to administer the influenza vaccine to my 12 year old minor. I would be opposed to this if the age 18 and under. As parents we are the protectors of our children and per the National Childhood Vaccine Injury Act of 1986 all parents must be given the VIS for all vaccines given to a minor child. This is our right as parents and it should not be overstepped.

Thank you,

Amy Mallardi
